

Dear FCC:

Re changing the ownership cap rules, I oppose the plan that's been reported. Why not publish the plan and allow debate, rather than put it out only days before a vote? The UHF discount appears to be a political "slush fund" FCC staff can dip into to increase the cap. Media concentration is harmful for quality news coverage; this rule is a sop to a few large multinational media cos. that simply want to grow larger; there is no public benefit to raising the cap.

Sincerely,

Dan Jamieson
